We are pleased to present Grant Thornton Dealtracker Report for the first quarter of 2016. This is the 12th year of publishing this document and I want to thank the readers for their continued support, feedback and interest which has made the publication one of the prime sources of information relating to M&A and PE deals in the country.

The year 2016 has kicked off on a positive note with over 400 deals valued around US\$ 11.9 bn in the first quarter compared to US\$ 9.4 bn across 352 deals in the corresponding quarter in 2015. Deals space in 2016 has witnessed some big-ticket transactions such as the acquisition of Tass-Yuryakh oilfield for US\$ 1.3bn by Indian Oil Corp Ltd., Oil India Ltd. and a unit of Bharat Petroleum Corp. Ltd., and Naspers Group's US\$ 250 mn investment in the ibibo Group Pvt Ltd. Another key trend we noted in the first quarter was the announcements of transactions by large groups to sell off certain core assets in the cement, power and other sectors to reduce their Group debt. We expect to see several of these culminate in transactions in the second quarter and rest of the year. This will happen on account of the fact that several large groups need to deleverage.

Key drivers for the deal activity continued to be domestic transactions with cross-border transactions maintaining last years' pace with deals valued over US\$ 5.9 bn. Notably, outbound deal values grew more than four times compared to the previous year owing to four big ticket transactions demonstrating revived business sentiments.

Continued traction in private equity (PE) transactions with over 27 percent year-on-year growth in volumes was driven by startups and E-commerce investments. Steadily growing by 14 percent year-on-year, the PE/VC investments were valued at US\$ 2.9 bn in the first quarter of 2016.

With a weaker stock market, good company valuations and the proposed finance bill, the environment is suitably inclined for M&A and PE transactions. Additionally, given the positive macro-economic environment, we anticipate 2016 to be an exciting year for deal making.

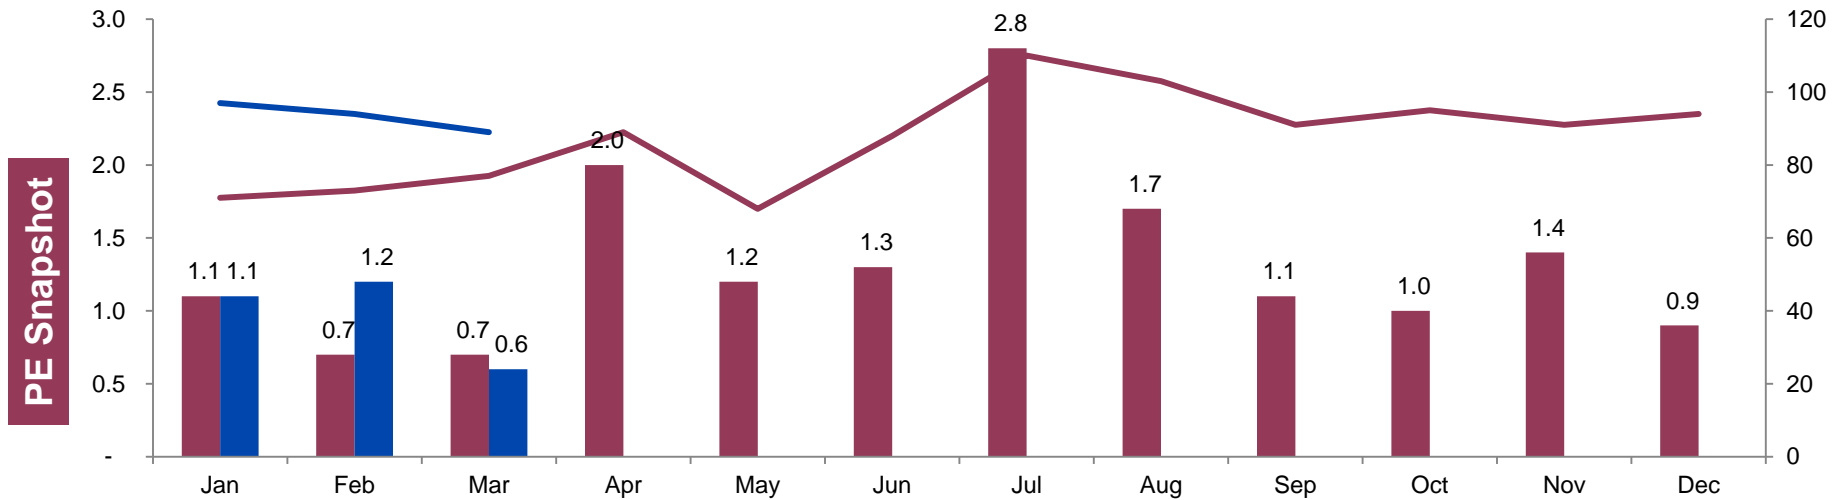

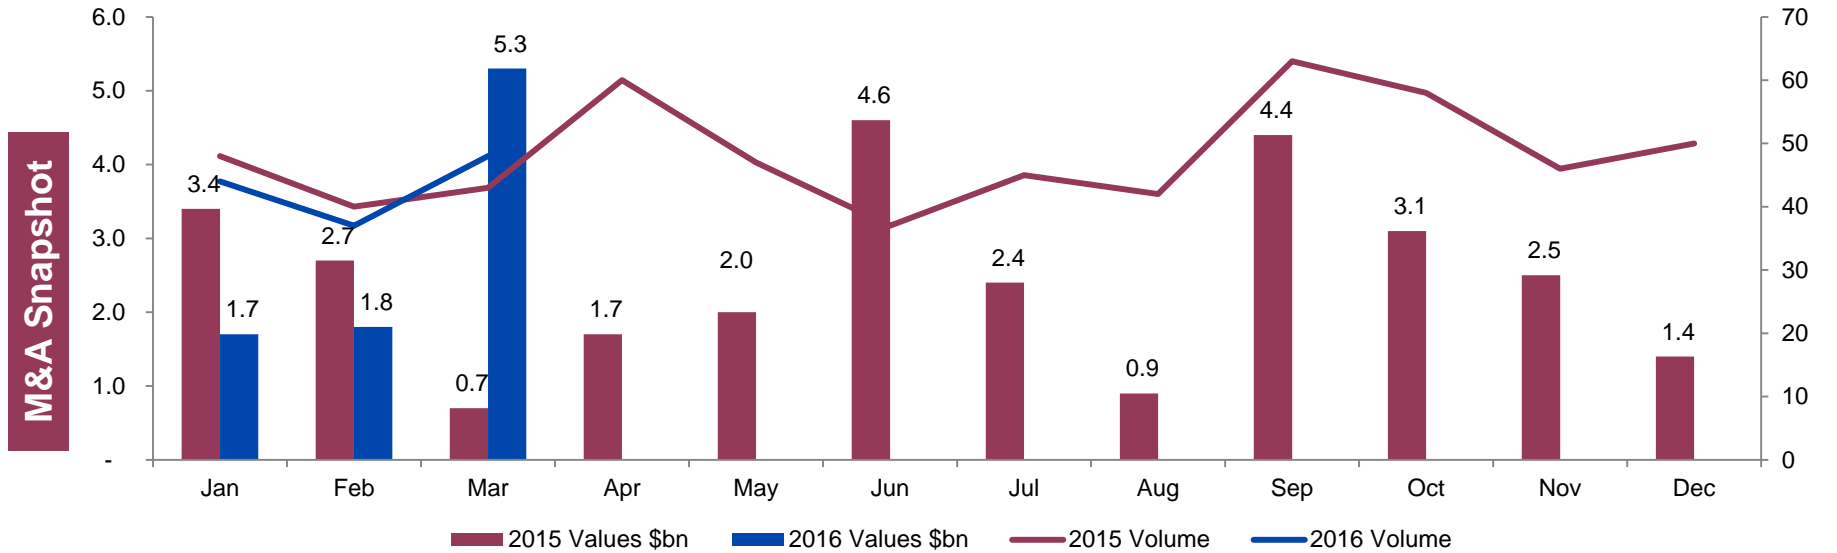

Mergers and acquisition (M&A) transactions have dominated deals space. On account of this, the first quarter of 2016 has witnessed strong deals momentum and surpassed the corresponding quarter of 2015 by 27 percent in terms of value and 16 percent in terms of volume. M&A transactions were alone valued at US\$ 8.9 bn indicating a 31 percent growth. Primary drivers for M&A growth was the strong outbound interest contributing to over 20 percent of total deal values and consolidation in the domestic market with deal values growing by 66 percent. Inbound transactions continued to be the highest contributor with deals valued around US\$ 3.5 bn contributing to about 30 percent of total deals.

Private equity (PE) investments in this quarter were valued at around US\$ 3 bn growing by a steady 14 percent year-on-year. PE investment volumes have also increased by a healthy 27 percent with 280 deals.

On the M&A front, core sectors such as telecom, energy and automotive have attracted big ticket transactions which together contributed 50 percent of the total M&A deal values. Against this, IT and banking sector topped in terms of volume of transactions. PE/VC investments, on the other hand, continue to be attracted to the E-commerce or consumer technology sector with the quarter witnessing US\$ 970 mn across 28 investments. Notably, more than 180 startups received investments of more than US\$ 454 mn which is encouraging.

The increasing number of big ticket transactions is another encouraging trend with the quarter witnessing 19 big ticket deals valued over US\$ 100 mn. Easing FDI norms, regulations in cross border transactions apart from implementation of other key government initiatives will hopefully continue to drive business sentiment and maintain this deal momentum throughout 2016.
